SAI DARBAR MOTAR TRAINING SCHOOL

School Policy

Version 1.0 | Updated November 2026 | Audience: Students, parents, staff and instructors

Government-authorised (RTO-recognised) motor driving school, working since 2012-13.

1. About the school and scope

Item	Details
School name	Sai Darbar Motar Training School
Address	Dnyaneswar Nagar, near Kamgar Hospital, Wagle Estate, Thane - 400604, Maharashtra
Phone / WhatsApp	8677097777
Email	guruzirpe@gmail.com
Status	Government-authorised (RTO-recognised) motor driving school, working since 2012-13
Driving school licence	Licence in Form 11 granted by the licensing authority (RTO) under rule 24 of the Central Motor Vehicles Rules, 1989. The original licence and the names and addresses of the instructors are displayed in the school office (rule 27(j)).
Office hours	As displayed at the school office

This policy applies to every student, parent or guardian, instructor, staff member and visitor, and to all services of the school, including the staff app, the website and the customer app.

Legal basis
A driving school in India may be run for hire or reward only under a licence in Form 11 (Motor Vehicles Act, 1988, section 12; Central Motor Vehicles Rules, 1989, rules 24 to 31). The licence is valid for 5 years and is renewed in Form 13 not less than 60 days before expiry (rule 25). This policy follows those rules. Where this policy and the law differ, the law prevails.

2. Services offered

- Assistance with the learner licence application and test preparation.
- Practical driving training in the vehicle classes named in your enrolment form.
- Assistance with the permanent licence application, test slot planning and test-day support.
- A driving school certificate (Form 5) to every student who completes the course (rule 27(d)).
- Study material, lectures and practice tests in the customer app (free and paid batches).
- Status updates and reminders by email and app notifications.

The school helps with the process. The learner licence test, the driving test and the issue of licences are decided only by the Regional Transport Office (RTO). The school cannot guarantee a pass, a test date or the date a licence is issued.

3. Admission and eligibility

- The student must meet the legal age for the vehicle class: 16 for a motorcycle up to 50 cc with guardian consent; 18 for a motorcycle with gear or a car (Motor Vehicles Act, section 4).
- Students below 18 need a parent or guardian to sign the enrolment form.

- Admission needs valid identity and address documents, photographs, a working mobile number and an email address.
- Documents are checked by staff. The student must confirm that all details, especially name and date of birth, are correct. Wrong details can delay the licence.
- A student must be physically and mentally fit to drive and must tell the instructor about any medical condition, such as epilepsy, fainting, poor eyesight or heart disease.
- Each student is enrolled in the school's register in Form 14 (kept on an annual basis) and has one record in the system. The system warns about duplicates using mobile number, PAN or learner licence number.

4. Fees and payments

- The total fee, the course or package, and what it includes are given to the student in writing before payment.
- Government fees (learner licence, driving test, licence issue) are paid at actual cost. The enrolment form states whether they are included in, or charged separately from, the school's training fee.
- Instalments are allowed only if agreed in writing, with due dates on the receipt.
- A receipt is issued for every payment, with date, amount, mode and the name of the staff member who received it. The student should not pay without receiving a receipt.
- Accepted payment modes are those stated on the school's office notice or receipt. Payment to a personal account is not accepted unless the school has said so in writing.
- Fees for study batches in the customer app are paid online. Access starts only after the payment is confirmed by the payment gateway.
- Fees may be revised for new admissions. A fee already agreed in writing will not be increased for the same course.

5. Cancellation and refund

The amounts and time limits that apply to you are written in your enrolment form before you pay. The rules below apply to the school's training fee only.

Situation	Refund
Cancelled before the first training session	Full refund of the training fee less any administrative charge that was stated in writing at admission.
Cancelled after training started	Refund of the fee for unused sessions, less any administrative charge stated in writing at admission.
Government fees already paid to the RTO	Not refundable by the school. Refund, if any, follows the RTO's rules.
Student absent or not responding for a long period	Course may be closed after the period stated in the enrolment form; no refund for sessions already scheduled and missed.
Paid batch in the customer app	Refund only for payment errors or if the content cannot be accessed; not after content is used.

Refund requests must be made in writing or through the app. Approved refunds are paid by the original payment mode, within the time the school confirms in writing when it approves the refund.

6. Training policy

- The course follows the syllabus in rule 31 of the Central Motor Vehicles Rules, 1989. For non-transport vehicles it covers driving theory, traffic education, driving practice, public relations for drivers and first aid. The training period is not less than 21 days and actual driving hours are not less than 10 hours (rule 31). For motorcycles it is sufficient to cover the portion of the driving-practice part that applies to them.
- The school records each trainee's daily driving hours in Form 15 (rule 27(i)).
- The session length, the number of sessions and the course period for each package are given to the student in writing.
- Sessions are scheduled with the instructor in advance. A student who cannot attend must inform the school before the session, within the notice period stated in the enrolment form. Late cancellation or no-show may count as a completed session.
- A student who is late may lose the session or have it shortened, as stated in the enrolment form.
- The student must bring the learner licence to every on-road session and must wear comfortable closed footwear.
- Training is on a dual-control vehicle with an authorised instructor. The instructor can take control of the vehicle at any time for safety.
- A learner drives only with the 'L' sign displayed and with the instructor seated where he or she can control or stop the vehicle (rule 3).
- The instructor may stop a session if the student is unwell, appears to have consumed alcohol or drugs, is not following instructions, or if road or weather conditions are unsafe.
- Phones must be off or kept away during driving. No eating or smoking in the training vehicle.
- Students may ask for a female instructor where available, and the school will try to arrange it.
- Extra sessions beyond the package are charged at the rate written in the enrolment form.

7. Instructor, premises and vehicle standards

Instructors

- The school and its staff are of good moral character and qualified to give driving instruction (rule 24(3)).
- The applicant or each staff member who gives instruction has at least a pass in the 10th standard, a minimum of five years of driving experience together with a certificate in a motor mechanics course or a higher mechanical qualification, thorough knowledge of traffic signs, the ability to demonstrate and explain the parts of a vehicle, and adequate knowledge of English or the regional language (rule 24(3)(viii)).
- Instructors hold a valid driving licence for the class they teach.
- Instructors are trained to teach calmly, give clear instructions, and respect students at all times.
- Instructors must never drive under the influence of alcohol or drugs, use a phone during a session, or ask a student for money or favours.

Premises and teaching equipment

- The premises are owned, leased or hired in the school's name, with provision for lectures and demonstration of models and adequate parking for the training vehicles (rule 24(3)(ii)). The school does not shift premises without the prior written approval of the licensing authority (rule 27(f)).
- Teaching equipment as listed in rule 24(3)(vi) is maintained, including a blackboard, a road plan board with model signals, traffic sign and signal charts, a vehicle components chart, an engine and gearbox for demonstration, a puncture kit and tools, a driving instructions manual, a collection of books on driving, road safety and motor vehicle law, and a fully equipped first-aid box.

- The premises, records and registers are open for inspection by the licensing authority or a person it authorises (rule 27(g)).

Vehicles

- At least one vehicle of each type in which instruction is given, used exclusively for instruction, and fitted with dual controls (except motorcycles) so that the instructor can control or stop the vehicle (rule 24(3)(iv) and (v)).
- The school name, full address and telephone number are shown in bold letters on all training vehicles (rule 27(h)).
- Valid registration, insurance, fitness (where applicable) and pollution certificates at all times.
- 'L' sign as required, working seat belts, lights, indicators, horn, mirrors and tyres in good condition.
- A first aid kit and a fire extinguisher in each training car (school standard).
- Regular servicing and a daily pre-session check (see the SOP document). A vehicle that fails the check is not used.

8. Test-day policy

- The school informs the student of the test date, time and RTO by email and app notification, with reminders 2 days before, 1 day before and on the morning.
- The student must reach the RTO on time with the learner licence, original documents, the application or slot receipt, and the vehicle arrangement agreed with the school. The test is taken in a vehicle of the type applied for (rule 15(2)).
- The enrolment form states whether a school vehicle is provided for the test and any charges.
- The result is decided by the RTO. If a student fails, the school will explain the reasons given, arrange extra practice if the student wishes, and help to book the re-test. Re-test fees to the RTO and any extra training fee are paid by the student.
- If a student misses a test slot without informing the school, re-booking charges and fees are the student's responsibility.

9. Honest practice

- The school does not promise licences without a test, and does not pay or ask students to pay unofficial money to anyone for a test, a slot or a licence.
- As required by rule 27(k), the school does not mislead any applicant about its ability to procure a licence other than in accordance with the rules, and does not connive in any act to circumvent them.
- The school does not use any method to bypass government portal security such as OTP or CAPTCHA, and does not ask for a student's government portal password.
- The school does not advertise a test exemption unless it is an Accredited Driver Training Centre approved to issue Form 5B.
- Any staff member who breaks these rules faces disciplinary action. Students are encouraged to report such cases (see Complaints).
- A licence can be suspended or revoked by the licensing authority for breach of rule 27 (rule 28), so these rules protect the school and its students.

10. Code of conduct

Students

- Treat staff, instructors and other students with respect. Harassment, abuse, threats or discrimination are not tolerated.

- Follow safety instructions and traffic rules. Damage caused by deliberate misuse of a vehicle may be charged to the student.
- Do not share account passwords or paid content. Do not copy, record or publish the school's study material.

Staff and instructors

- Wear the school identity card. Keep student information confidential. Never accept cash without issuing a receipt.
- Do not share student documents on personal phones, social media or messaging groups.
- Treat every student fairly, with special care for women, elderly students and students with disabilities.

11. Data protection and privacy

- The school collects only the data needed for training and licence work: identity details, contact details, photographs, fee records and licence stage records.
- Aadhaar: only the last 4 digits are stored for display. Any Aadhaar or PAN image is kept in encrypted, private storage with restricted access, and every access is logged.
- Data is collected with the student's consent, given at admission, and is used only for the school's services and legal requirements. It is not sold.
- Access is limited to staff who need it. Documents must not be forwarded on personal messaging apps.
- Data is kept only as long as needed for the training and licence work and for the period any law or the licensing authority requires records to be kept.
- Students may ask to see, correct or delete their data, subject to legal record-keeping requirements. Contact the school office.
- If any AI-based help (chat assistant) is offered in the app, students should not type Aadhaar, PAN, bank or password details into it. The school never asks for these in chat.

12. Communication and security

- The school contacts students by email, app notifications and phone or SMS about stages, reminders, appointments and results.
- Login access is sent as a one-time set-password link that expires in 24 hours. Staff will never ask for your password or OTP.
- Students must keep their login private and report any suspicious activity immediately.

13. Complaints and grievances

1. Raise the issue with the staff member or instructor concerned, or at the office.
2. If it is not resolved, write to or call the manager at the school office (phone / WhatsApp 8677097777, email guruzirpe@gmail.com).
3. If it is still unresolved, write to the owner. The school will reply in writing.
4. Students may also contact the RTO, or the National Consumer Helpline (1915) for consumer complaints.

14. Incidents and safety

- In an accident during training the instructor stops the vehicle, secures the area, checks for injuries and calls 112 or 108 if needed.

- The school informs the owner and the student's family, records the incident, and informs the insurer.
- The school's insurance covers the training vehicle as per the policy. A student who has hidden a medical condition may be held responsible for resulting consequences.

15. Changes to this policy

The school may update this policy. The latest version and date are always shown on the first page. New versions apply from the date published. Effective date: November 2026 (Version 1.0).

Student acknowledgement

I have read and understood this policy and I agree to follow it. I consent to the school storing and using my documents and details as described in section 11.

Student name	Signature	Date	Parent / guardian (if under 18)
